### QUAD INDEPENDANT MEDIA CONVERTERS

The **Q-FOC** kit is a black or grey metal part with AC/DC converter which provide **a four independent media converters** on compact form and with the possibility to fix them on the wall or under the table in order to protect the fiber.

This solution avoid people to tear out and cut the fibers.

A single power supply is shared by the four media converters with single jack. The back hood covers the access to the power cables to each media converter and protect the DIP switches.

Four holes permit to the user to fix the Quad Media Converter on the wall.

This kit can be used with four media converter Ethernet, Gigabit Ethernet and 10 Gigabit Ethernet :

### SPECIFICATION

#### Dimensions : W x D x H

- chassis 360 x 135 x 28 mm
- AC/DC power module 50 x 110 x 20

#### Power supply:

- Single Jack in the side
- DC 5V
- AC/DC adaptor 35W at 40 °C
- Fixed cable to jack 1,8m
- AC jack type IEC320/C8 (razor type)
- Supply with 1,2m European AC cable

#### Include :

- Chassis
- AC/DC adaptor with AC cable
- 12 screws to fix the 4 media converters

The screws to fix the Q-FOC on the wall are not supplied.

### ORDER NUMBER

<b>Q-FOC</b>	black version supply with European AC plug
<b>Q-FOC-UK</b>	black version supply with UK AC plug
<b>Q-FOC-US</b>	black version supply with US AC plug
<b>Q-FOC-G</b>	grey version supply with European AC plug
<b>Q-FOC-G-UK</b>	grey version supply with UK AC plug
<b>Q-FOC-G-US</b>	grey version supply with US AC plug
<b>Q-FOC-TTX-FX-MM</b>	Q-FOC + 35W AC/DC converter + 4 FOC-TTX-FX-MM
